CAREER SYNOPSIS

Motivated Artificial Intelligence & Machine Learning undergraduate with strong hands-on experience in AI, cybersecurity, IoT systems, and software development. Adept at building real-world projects involving computer vision, threat detection, secure communication, and embedded systems. Demonstrated ability to work in fast-paced environments through internships, hackathons, and leadership roles. Passionate about developing scalable, secure, and impactful technology solutions.

ACADEMICS

✓ Bachelor of Engineering (AI&ML) I.K.G.P.T.U. KAPURTHALA	SGPA – 8.76	2022-2026
✓ Senior Secondary Education(12 th) (CBSE) Sant Ishar Singh Ji Memorial Public School, Ludhiana	Percentage – 73.4%	2022
✓ Secondary Education (10 th) (CBSE) Good Earth Convent School, Ludhiana	Percentage – 78.2%	2020

PROFESSIONAL CERTIFICATIONS

- ✓ Attained Python certification in 2025 in Khalsa Software, Ludhiana.
- ✓ Attained full Mern Stack on-the training certificate in RYAZIO Technologies LLP in 2024.
- ✓ Attained CyberSecurity certification in Hactify, Andheri on 2024.
- ✓ Attained Data Science & ML Intern certification in Edureka on 2024.
- ✓ Attained Cloud Intern Certification in Excelien on 2025

TECHNICAL COMPETENCIES

- ✓ **Programming Languages:** Python, C++, Java, R
- ✓ **AI & ML:** Machine Learning, Data Science, Computer Vision, YOLO, TensorFlow, NumPy, Pandas

- ✓ **Cybersecurity:** Steganography, Threat Analysis, OWASP Basics, Vulnerability Assessment
- ✓ **IoT & Embedded:** ESP8266, Sensor Integration, Real-time Monitoring Systems
- ✓ **Web & Tools:** HTML, CSS, JavaScript, React.js, Git, Tableau, Jupyter Notebook

INTERNSHIP/ TRAINING EXPERIENCE

Intern – Data Science & Machine Learning | Edureka **Feb 2024 – Mar 2024**

- ✓ Gained hands-on experience in data analysis, machine learning fundamentals, and model implementation using real-world datasets . Analyzed real-world datasets to identify patterns, trends, and actionable insights with achieving 90% accuracy .

Trainee – Full Mern Stack | Ryazio Technologies LLP **Jun 2024 – Jul 2024**

- ✓ Built and Evaluated real world projects using Mern Stack, achieving up to 85% accuracy on learning skills with real-world Industry works.

Intern – CyberSecurity | Hacktify, Andheri **Jun 2024 – Jul 2024**

- ✓ Hands-on experience in cybersecurity tools and vulnerability analysis, achieving 92% accuracy in security assessments.

Intern – Cloud | Excelien Company , Mohali **Jun 2025 – Aug 2025**

- ✓ Gained experience in cloud solution selling and CRM management, achieving 90% accuracy in lead qualification and sales reporting.

Trainee – Python | Khalsa Software Technologies , Ludhiana **Jun 2024 – Aug 2024**

- ✓ Hands-on experience in Python development and automation, achieving 95% accuracy in coding tasks and project execution.

PROJECTS

AI-based threat detection system

- ✓ Designed an AI-based threat detection system using machine learning to analyze security data and detect threats with 94% accuracy, showcasing the role of AI in intelligent cybersecurity solutions.
- ✓ **Tools Used:** Python, Pandas, NumPy, Scikit-learn, Matplotlib

Agro Intruder Alert System (IoT + AI)

- ✓ Designed an IoT + AI intruder alert system for farms, detecting unauthorized access with 93% accuracy using sensor and image data.
- ✓ **Tools Used:** Python, Raspberry Pi, Arduino, OpenCV, TensorFlow, IoT Sensors

Secure Image Steganography System

- ✓ Built a secure image steganography system using AI and encryption, achieving 95% accuracy in hidden data retrieval.
- ✓ **Tools Used:** Python, OpenCV, NumPy, Pillow, Scikit-learn, Cryptography
